

The decision by the FCC to allow Sinclair Broadcasting to air a clearly partisan and attack on a presidential candidate to its exclusive and LARGE viewership must be stopped.

The current behavior of our government to allow media outlets to be ever-more consolidated into the hands of the few is antithetical to the practice of democracy.

The result is local communities blinded to the needs of their own neighborhoods and increasingly dependent on the self-interested views of media powerhouses.

Please give the country's airwaves back to the people.

Thank you,
Paul Condra
